MongoDB

PERSONAL PROJECTS

Loan5cr(03-08-22 / 28-08-22)

- Abs is a loan and funding base company that provides loans such as Home Loan, Business Loan Mudra Loan, etc. I have saved the data in the admin panel with the help of the CRUD operation.
- <https://manmohanrathod04.github.io/projectCNSWEB/loan5cr/>

Ourklient(May-22)

- This is the company's own personal project to manage the day-to-day operations of leads, sales, payment, etc. I made the front-end part of this project. This project was completed between **12 days**
- <https://manmohanrathod04.github.io/projectCNSWEB/ourklientcom/>

CNSWEBTECHNOLOGIES(June-22)

- This is also a company's own personal project which is used to show the services of the company. This project was completed between 20 to 25 days
- <https://manmohanrathod04.github.io/projectCNSWEB/cnswebtechnologies6/>

Admin Panel(March-22)

- This admin panel project is used to manage customers' data. How many customers purchased our franchise, whether customers' sites have active or not, whether social links are working properly or not, etc.
- <https://manmohanrathod04.github.io/projectCNSWEB/Adminpanel/>

DVC(Digital Business Card)

- For those customers who could not afford the website, then this is a mini site for them, which our customers can give information related to their products or services to their customers.
- <https://manmohanrathod04.github.io/projectCNSWEB/DVC/dvnew/theme1.html>
- I have made six themes and you can see by clicking on dbk in my portfolio.

ACHIEVEMENTS

In my previous company, I learned how to finish work in a short time.

I learned the requirements of customers. What do they want on the website?
